Principal's Report

Last Newsletter for 2021

Today marks the final newsletter for 2021. This year has been another challenging year in terms of disruptions, and I'd like to acknowledge the students and their ability to persist and display resilience in the face of these challenges. I am very much looking forward to finishing this year positively with our end of year events, and can't wait to get into the 2022 school year.

Staff Farewells

As we look to 2022, I'd like to acknowledge the following staff who are leaving us at the conclusion of the school year.

We say goodbye to Donna Gregg, who has had a significant influence over many years at both Ouyen Primary School and Ouyen P-12 College. Her impact on particularly our VCAL, VET and Digitech programs has been significant.

Mel Grant is also leaving us after 8 years to take up a position at Murrayville Community College. Mel has led our English and Maths departments, and been the lynchpin of our schools debating and public program. We will see a bit more of Mel as we continue to work with MCC as a cluster, which she will continue to lead.

We are also farewelling Amanda Elliott after 24 years as a teacher at Ouyen Secondary and Ouyen P-12 College. Amanda has been a strong contributor to our Maths and Humanities, in particular leading our VCE Accounting and Business Management classes for a generation of students.

We would also like to wish Dannalee Marshall all the best with the upcoming birth of baby number three.

Final Week Arrangements

Presentation night will take place at 7.30pm, on Tuesday December 14th.

A reminder that the final day for students is Wednesday December 15th. **3.15pm**

I hope everyone has an excellent holiday period and manages to enjoy some time with friends and family.

Have a great weekend,

Fel Cua

Important Dates

Tuesday Dec 14th
Presentation Evening 7.30pm

Wednesday Dec 15th
Students finish 3.15pm

Monday Jan 31st 2022
Students return to school

Ouyen P- 12 College Council

College Council met on Tuesday. We farewelled two of our Council team in Georgia Latta and Miss Melanie Grant. Georgia has been an excellent student representative on Council this year. Miss Grant has served on Council for the past 4 years, including time as minute taker, and has contributed strongly to both Council and the school. We wish them both well.

Among discussion points were changes to programs and staffing for 2022, the upcoming curriculum audit, the interruptions to the swimming program, groundworks over the summer break, equipment purchases, the Cyber Safety sessions with Susan McLean, DET policy updates, budgeting, progress of our shade grant application, and the changes to the management and operation of the school bus system by Public Transport Victoria. Like any public transport, the school bus service has strict operational guidelines. While the buses will seemingly still run as normal, eligible students using them require a PTV issued school bus pass. There are changed rules around access to buses.

We recognise the journeys of our departing students, families and teachers, appreciating the various inputs over their time with us. From a parent engagement perspective, we thank and farewell Justine Cresp – 4 years P and F President, a School Councillor, and a disability services advocate.

A successful transition program has occurred. I encourage all to welcome our new families and staff, and assist them to build strong relationships with our school.

Further to building relationships, I commend to you the new [launched Wednesday] Parents Victoria campaign – Think – Wait – Communicate. This reminds us to interact respectfully with each other in our community but particularly as parents/ carers approaching the school. Parents Victoria [and School Council] wants our families to be at their best when communicating with the school. This project supports the new Victorian Government's *Respectful Behaviours within the School Community Policy*.

DET's main messages to Victorian Government School communities are:

"Everyone in the school community has the right to a safe and healthy learning environment and workplace," and "It's important that adults in school communities continue to treat each other with respect and kindness".

Our school values of Community, Respect, Endeavour, and Integrity also speak to this. Visit <https://www.parentsvictoria.asn.au/think-wait-communicate/>

Council would like to encourage families to make voluntary contributions as per the Parent Payment policy. They are, of course, voluntary, and whether you make them or not is up to you. If you need clarification around the policy, I respectfully urge you to contact the school, or Council.

Congratulations to all whose endeavour, talents, and positive attitudes earned them special recognition across all year levels and a variety of fields. It was a difficult time in which to be your best. "Well Done" to the F -4 crew for entertaining the community with *Lights, Camel, Action 2*; a fabulous way to end the year. Next Tuesday we will recognise the efforts and achievements of our senior [5-12] students. Congratulations, in advance.

I wish you a joyful and refreshing festive season, and look forward to an exciting 2022.

Raelene Vine – President

Sheep Sale Roster

The first sale for 2022 will be on Thursday, February 3rd. If anyone would like to join Raelene or Katrina in the kiosk for a couple of hours – especially as an opportunity to find out how it operates, please contact the school or Raelene [0407849174].

February 3rd	Worker	Raelene Vine / Volunteer
	Cooks	Prue/ Chris Lynch Megan/ Dean Jardine Raelene/ Geoff Vine
February 17th	Worker	Katrina Erhardt/ Volunteer
	Cooks	Melissa / Brent Morrish Kendelle/ Matt Barry Fiona/ Darren Latta

Debating Award

Congratulations to Milla Searle who has been awarded a Swannie Award by the Debaters Association of Victoria. The Swannie Awards recognise the achievements of the best speakers in the Debaters Association of Victoria Schools Competition. They are named after Alan Swanwick, one of Victoria's great debaters and adjudicators, and co-author of the *Australian Debating Handbook* (now the *Australia-Asia Debating Guide*).

The Schools Competition this year involved more than 10,000 students from over 1400 teams representing 250 schools in 4 grades across 23 regions. From this huge pool of talented debaters, just over 100 have been presented with a Swannie Award.

The awards ceremony was held online on Friday night, virtually, and it was lovely to celebrate the achievements of all of the young people involved across the state.

Milla has also been invited to the trials to try out for the Victorian State Team, which will be held online. Students will need to participate in two secret debates for the day, randomly assigned on the day. Progressing from here, can lead to team training, before competing at Nationals in May next year, if successful. We wish Milla all the best in her endeavours.

MAV Maths Camp

Over the September school holidays, Caleb Farnsworth was selected as one of 24 regional Year 10 students to participate in the MAV Maths Camp from Monday 27th September – Friday 1st October. However, due to COVID-19, the 2021 camp was conducted predominantly virtually.

The mathematics camp brings together high potential rural and regional students to experience what a career in some of the most exciting organisations in the STEM industry look like. The aim of the program is to provide a chance for students to gather, in a virtual environment, with like-minded peers and work in small groups to explore hands-on, industry problems. Students will work in a team to complete a real-world mathematics project.

The MAV partnered with four mathematical industries. Each industry provided students with a project investigation. Students received daily mentoring by mathematicians and industry representatives. Students are expected to develop their project presentation and solution as a team, developing 21st century skills including communication, problem solving and creative and critical thinking. The open-ended projects stretch the application of mathematics past students' usual experience and challenge them to come up with innovative solutions.

The week culminated in students presenting their project findings in the presence of the industry partners, invited guests and parents (which had to be held online). It was impressive to be able to watch and hear the professional feedback, showing that Caleb's group had actually gone above and beyond the expectations of the project proposal, and had presented other solutions as well.

The maths camp is funded by the Victorian Department of Education and Training through the Strategic Partnership Program, and is organised on an annual basis with this funding.

Congratulations to Caleb, for all of your hard work and efforts.

$$(x+3)^2=4$$

Year 9 First Aid

Kristy – Chicken Carbonara

Mia - Crumbed Chicken Sliders & Sweet potato chips

Liam – Cream and Fruit Mini Pavlovas. 1st Place

Mia – Apple Crumble layered cake. 2nd Place

Matthew – Strawberry Layered Cake

Seanna – Chicken Curry & Rice. 3rd Place

YEAR 8 MASTERCHEF CHALLENGE
The students completed a design folio which culminated in a cook off judged by Mr. Cua, Miss Grant and Maddy Morrish. They were all very impressed with the dishes cooked by the students. The results were very close. Well done to all students.

Leon – Oreo chocolate cake

YEAR 10 - FREE COOK
The Year 10 Food class were able to choose what they would like to make in their last Food session. We were treated to Hazelnut Slice, Peppermint Slice, and a variety of Macarons.

YEAR 11 BIOLOGY

During Early Start, the Year 11 Biology Class of 2022 enjoyed a practical session investigating the effect of size on diffusion rates.

Ouyen District Junior Basketball Association

Basketballers are reminded that Round 4 will be played on Monday, December 13 due to the Presentation Evening being on Tuesday.

We will have a visit from Mahaela Jackson, Development Officer with Basketball Vic on Monday. Mahaela is based in Mildura and is looking to run some clinics here in January for skills and play, and for refereeing. Watch out for information on these. Thanks to everyone who has been so considerate around vaccination status, sign-in, and CHO rules – our volunteers appreciate it. We do ask that people also remember to check their rubbish makes it into the bin, and no chewing gum is left anywhere it shouldn't be. We are fortunate to have the stadium; respecting that is vital.

Everyone should have registered but a few are still outstanding. Registrations can be completed at the PlayHQ link below. Select the appropriate competition – Junior Mixed, Senior Girls, Senior Boys and take it from there.

<https://www.playhq.com/.../ouyen.../baa8588d/register>

Round 5 will be on February 1st. Have a great break

Raelene Vine
Secretary

PRIMARY SPORTS NEWS

The Primary swimming program has continued this week in different conditions – gone are the nice sunny days, to be replaced with some cool and windy weather.

Well done to the students who came along to each session with a smile on their face and tackled the cooler conditions.

Thank you to the staff who have assisted with the program to make it a success, the staff at the pool for having everything ready and Amanda Foster who has clocked up a number of kilometres in the school bus over the course of the program.

Merry Christmas to all students and families. Thank you for your support in 2021. Thank you to everyone who has contributed to the sport program this year. We can't wait for 2022. *Enjoy the holidays!*

Inspirational Virtual visits from Famous Australian Authors

Leigh Hobbs.

On Tuesday 30th November, we were fortunate to have the opportunity to meet virtually with Leigh Hobbs, the author, illustrator, artist responsible for the Old Tom, Horrible Harriet, Mr Chicken stories. He had us all drawing and creating our own characters and stories in no time.

His main message was you can create your own characters, we don't have to copy others and everybody is different.

Our impressions were that Leigh Hobbs is a really, really funny guy, and we liked meeting his dog. His drawings are different and not like other people's because he makes up his own and he uses shading more than colour.

Mark Greenwood.

Mark Greenwood is an author specialising in stories about Australian History. When we spoke with him virtually, all the way from Western Australia, we found the way he researches and writes, truly remarkable. It was spine tingling at times and our students (and staff) were certainly intrigued about which parts were fact and which were fiction. We were all amazed at the lengths Mark goes to, to research and write stories, including world travel, cave diving, visiting live volcanoes and building a suit of armour and wearing it around. Mark's presentation showed over and over, that it is not always about just facts. Students had some questions for Mark, which have been emailed through, and he is currently in the process of answering them, so stay tuned. You might recognise some of his titles.

Just in case you might like to get a message through to Santa, Leigh Hobbs' books are available, personally signed through this contact.

Debating	<p>The team won the Wednesday Online C Grade Competition after 5 rounds. They were invited to Round 3 of the octo-finals, where they lost by 1 or 2 points. Milla Searle – was awarded the Swannie Award by the DAV – this is awarded as the best speaker in your grade and region in the 2021 Schools Competition. “Swannies” are awarded to the speaker in each region and grade who has the highest average speaker score after completing at least three debates during the year. The average is calculated solely on speaker scores and is not affected by the best speaker awards that are announced at the end of each debate. Milla Searle has been invited to the DAV Trials for the Victorian State Team for the 2022 National Competition.</p>					Asha Goddard Georgia Latta Caleb Farnsworth Milla Searle

About the comps:

<p>KSF</p>	<p>Kangourou sans Frontières: (Kangaroo without borders). it has grown to become one of the largest international mathematics competitions in the world, with more than 6 million participants annually.</p> <p>In Australia, Kangourou sans Frontières (KSF) is an online only, multiple-choice competition for years 3–12, and may only be entered by schools also competing in the Australian Mathematics Competition.</p> <p>All papers have 30 questions except Middle Primary, which has 24. The primary papers are 60 minutes, and the high school papers are 75 minutes.</p>
<p>Maths Challenge</p>	<p>Designed for students in years 3–10 and is usually conducted over 3–4 consecutive weeks between March and early June (but the timing of 3–4 weeks is up to your school). This year students completed this over Remote Learning, at lunchtimes and as extension after classwork was completed.</p>
<p>CAT</p>	<p>The Computational and Algorithmic Thinking (CAT) competition is a one-hour problem-solving competition designed to encourage student curiosity and promote multiple modes of thinking.</p> <p>Neither teachers nor students need computer programming ability, but the competition helps identify students' computer programming potential.</p> <p>The competition is an ideal activity to encourage students to solve real-world problems. It is suitable for any mathematics class and the process helps students become more confident as they take on interesting new challenges.</p> <p>The competition has a mixture of multiple-choice and integer answers and incorporates unique 'three-stage tasks' that encourage students to develop informal algorithms and apply them to test data of increasing size or complexity. The original problems are designed to be quick to solve and highly approachable, and range in difficulty from very easy to challenging. Some questions test the ability to perform procedures, others require logical thought, while the more challenging problems require the identification and application of algorithms.</p>
<p>AMC</p>	<p>The AMC is an engaging 30-problem competition that demonstrates the importance and relevance of mathematics in students' everyday lives; it is open to students in years 3 to 12. Australia's leading educators and academics, with a deep understanding of our national curriculum standards, actively design the unique AMC problems each year.</p> <p>Year 10s completed the paper version after returning from camp this year.</p>
<p>OUCG</p>	<p>The Oxford University Computing Challenge (OUCG) builds on the principles used in the <u>Computational and Algorithmic Thinking (CAT)</u> and helps students develop their skills further to produce programmed solutions to computational thinking problems. They will tackle problems using the Blockly programming language, as well the programming languages available at their schools for secondary levels.</p> <p>The OUCG is a two-round online competition held in term 2 and it's perfect for students who have previously done well in the CAT and those who'd like to progress to the Australian Informatics Olympiad (AIO).</p> <p>Each round consists of three sections. The first two sections are of five tasks each and the last is of two tasks, with the complexity increasing with each section. Students have one hour to complete all tasks within sections one and two and attempt the tasks in section three.</p>
<p>VHAP</p>	<p>Students are selected by the Department, based on their NAPLAN and other data provided. Completed over 10 weeks/1 term. They complete an online weekly class via the Virtual School and Cisco (Webex) then complete homework prior to the next session.</p>
<p>ICAS</p>	<p>International Competitions and Assessments for Schools is an independent skills-based assessment program. It recognises and rewards student achievement in areas such as English, Maths, Science, Spelling, Writing & Digital Technology. Students in over 20 countries participate in ICAS each year.</p>

Mildura, giving is in your blood.

Mildura Blood Donor Centre
168A Eighth Street

Opening hours

Tuesday	10.00am – 6.30pm
Wednesday*	11.00am – 7.30pm
Thursday	10.00am – 6.30pm

See our website for details and public holiday opening hours.
*Open from 12.00pm to 7.30pm every 1st and 2nd Wednesday

Every week Australian Red Cross Lifeblood needs to collect 33,000 donations to be able to support those in need.

These donations are used to support patients through their cancer treatments or a difficult pregnancy, during surgery or in an emergency. Others have medical conditions which mean they need blood products regularly to stay healthy.

The need for blood never takes a holiday. Over the holidays, give the Gift of Life, give blood.

To book an appointment call **13 14 95** or visit www.lifeblood.com.au

Ouyen P-12 College Year 9 Community Class
Presents

2021 YEARS 5&6 PUSH CART COMPETITION

Endurance, Obstacle and Sprint Races

MONDAY THE 13TH OF DECEMBER AT 10AM

We will be holding this event across the school grounds, please meet us on the lawn area near the Fuller Street entrance at 10am.
Please note to attend you will need to be able to provide proof of double vaccination.

MOSAIC MURALS

This year for our Community class the Year 9 group have organized to re-do the murals on the school community center. We have organized to do Mosaic murals to represent our new school values and are in need of tiles. If you have any old unwanted ceramic dishware or tiles at home that you could donate, we would greatly appreciate it. We require a range of colours to do this so any would be appreciated. To donate these ceramics they can be dropped off at the office.

Ouyen P-12 College
Address: 1-35 Fuller St, Ouyen VIC 3490
Phone: (03) 5092 1182
ouyen.p12@education.vic.gov.au
Office hours- 9am to 4-pm
